DOCKET NO. 2017-292-WS

APPLICATION OF CAROLINA WATER SERV  
ICF, INC. FOR ADJUSTMENT OF RATES  
AND CHARGES AND MODIFICATIONS TO  
CERTAIN TERMS AND CONDITIONS FOR  
THE PROVISION OF WATER AND SEWER  
SERVICE

On November 10, 2017, Carolina Water Service, Inc. ("CWS" or "Company" or "Applicant") filed an Application with the Public Service Commission of South Carolina ("Commission") for an adjustment of the Company's rates and charges and modification of certain terms and conditions for the provision of water and sewer service. CWS is a public utility, as defined by S.C. Code Ann. § 56-5-10(4), providing water and sewer service to the public for compensation in certain areas of South Carolina.

According to the Application, the proposed rates and charges represent a total increase in revenues of approximately \$4,596,850 or 23.58%, comprised of an increase in water revenues of approximately \$3,312,034 or 21.37%, and an increase in sewer revenues of approximately \$2,284,016 or 25.64%. In support of its request for an adjustment in water and sewer rates and terms and conditions, CWS asserts, among other things, that the proposed water and sewer rate increases are necessary in order that it may provide reasonable and adequate service to its customers, comply with standards and regulations set by the Department of Health and Environmental Control and other governmental agencies which regulate the environmental aspect of the Company's business, cover its expenses, earn a reasonable return on its investment, and attract capital for future improvements. The Company also asserts that the proposed water and sewer rate increases are necessary to preserve its financial integrity and to promote continued investment in and maintenance of its facilities so as to provide reliable and high quality services.

THE PROPOSED CHANGES IN THE RATES AND CHARGES ARE available from the Company by contacting Charles L. A. Terrien, Terrien Law Firm, LLC and Scott Elliott, Elliott & Elliott, P.A., 1508 Lady Street, Columbia, SC 29201 or by visiting the Commission's website at [www.scpsc.org](http://www.scpsc.org) or Under Docket No. 2017-292-WS. A notice containing a schedule of a significant portion of the proposed rates and charges is also being delivered to the Company's customers and that notice is also available on the Commission's website.

The Application was filed pursuant to S.C. Code Ann. §56-6-240 and S.C. Code Ann. Regs. 103-712.4.A and 103-512.4.A. The Application seeks recovery of the balance in the regulatory deferral account associated with increases in purchased water from bulk water providers, as authorized in Order No. 2015-076 in Docket No. 2015-104-WS. The Application states that by notice dated October 9, 2017, the Town of Lexington (Town) notified CWS of the Town's intention to condemn CWS's 1-20 waste-water service territory which served approximately 2,300 customers. CWS states in its Application that it anticipates and, therefore, reflects the removal of the 1-20 waste-water system. The Application seeks to amend its Cross-Connections inspections to require residential customers to test their back-flow devices every two (2) years and to authorize CWS to terminate service to any customer, after notice, who fails to demonstrate that its back-flow device is operating properly. The Application seeks authority to create a \$100,000 Improvement Fund.
